New System Connection

This diagram shows the wiring for building a new energy storage system in your home.

DE: Neue Systemverbindung

Dieses Diagramm zeigt die Verkabelung für den Aufbau eines neuen Energiespeichersystems in Ihrem Haus.

IT: Collegamento del nuovo sistema

Questo schema mostra il cablaggio per la costruzione di un nuovo sistema di accumulo di energia domestico.

Installation | Einbau | Installazione

1 Position Floor Mounting Base Against Wall or Baseboard

DE: Den Bodenmontagesockel an der Wand oder Fußleiste positionieren
IT: Posizionare la base di montaggio a pavimento contro la parete o il battiscopa

2 Mark Pilot Holes for the First Module

DE: Vorbohrungen für das erste Modul markieren
IT: Contrassegnare i fori pilota per il primo modulo

3 Mark Pilot Holes for the Second Module

DE: Vorbohrungen für das zweite Modul markieren
IT: Contrassegnare i fori pilota per il secondo modulo

4 Mark Pilot Holes for Remaining Modules

DE: Vorbohrungen für die restlichen Module markieren
IT: Contrassegnare i fori pilota per i moduli rimanenti

Pre-Installation | Vor der Montage | Preinstallazione

Floor Mounting | Bodenmontage | Montaggio a pavimento

To mount the modules to the wall, refer to the online Installer Guide.
DE: Informationen zur Montage der Module an der Wand finden Sie im Online-Installationshandbuch.
IT: Per montare i moduli a pavimento, consultare il manuale per l'installatore online.

5 Install Mount Brackets to Wall

DE: Halterungen an der Wand montieren
IT: Installare le staffe di montaggio a parete

6 Mount Modules

DE: Module montieren
IT: Montare i moduli

After installing a module, tighten the module interlockers and then mount the next module.

DE: Ziehen Sie nach dem Anbringen eines Moduls die Modulverriegelungen fest und montieren Sie dann das nächste Modul.

IT: Dopo aver installato un modulo, serrarne gli interblocchi e poi montare il modulo successivo.

If necessary, insert the wedge shim into the power module's mount bracket for stability.

DE: Legen Sie bei Bedarf die Keilscheibe in die Halterung des Strommoduls zur Stabilität ein.

IT: Se necessario, inserire lo spessore a cuneo nella staffa di montaggio del modulo di alimentazione per garantire stabilità.

7 Attach Top Cover

DE: Obere Abdeckung anbringen
IT: Applicare la copertura superiore

1

Internal Connection

DE: Interne Verbindung
IT: Connessione interna

Before connection: Turn off the BAT Switch and the PV Switch.
DE: Vor dem Anschluss: Schalten Sie den BAT-Schalter und den PV-Schalter aus.
IT: Prima della connessione: Spegner l'interruttore BAT e l'interruttore FV.

Seal unused ports if you install only one column of modules.
DE: Verschlüssen Sie ungenutzte Anschlüsse, wenn Sie nur eine Spalte von Modulen installieren.
IT: Sigillare le porte inutilizzate se si installa solo una colonna di moduli.

Connect Two Columns DE: Zwei Spalten verbinden IT: Collegare due colonne

2

Connect to the Ground

DE: Mit der Masse verbinden
IT: Collegare a terra

3

Connect to PV Panels

DE: Anschluss an PV-Panel
IT: Connetti ai pannelli fotovoltaici

Before connection, make sure the DC power cables are connected to the PV panels.
DE: Stellen Sie vor dem Anschließen sicher, dass die Gleichstromkabel an die PV-Panel angeschlossen sind.
IT: Prima del collegamento, assicurarsi che i cavi di alimentazione CC siano collegati ai pannelli fotovoltaici.

4

Connect to the Grid and Backup Loads

DE: An das Stromnetz und die Sicherungslasten anschließen
IT: Collegare a rete e carichi di backup

5

Connect to the Power Sensor

DE: Verbinden mit dem Leistungssensor
IT: Collegare al sensore di potenza

6

Connect to the Internet

DE: Mit dem Internet verbinden IT: Connettersi a Internet

7

Attach Side Covers

DE: Seitenabdeckungen anbringen IT: Applicare le coperture laterali

8

Attach Baffles

DE: Leitbleche anbringen IT: Applicare i deflettori

Communication Ports and Terminals

DE: Kommunikationsanschlüsse und -endgeräte
IT: Porte e terminali di comunicazione
